Progress on Air Conditioning Units

Our two air conditioning units have arrived. They are behind
the worship center on the concrete slabs that were poured
by some of our men a few weeks ago. You will recall that
we had planned to purchase an A/C unit to replace the one
that failed last year and that the cost of that unit was going
to be a good deal at \$7,000. Just recently we learned of an
ever better deal in replacing the unit. It was such a good
deal that, after discussion with the Building and Grounds
Committee and the Finance Committee, we decided that it
would be wise to purchase two units instead of just one.
With the first unit having failed, everybody agreed that it is
likely that the other unit wouldn't last that much longer
either. We had learned that a good price for just one of the
A/C units was going to be a little more than \$10,000. (As
noted above, we had already secured a better deal than
that in being able to purchase one unit for \$7,000.) The
good news is that we have purchased two units for right
around \$10,000 once you include taxes and the expense of
going to pick them up. At this point in time, we have
collected \$8,478 toward that roughly \$10,000 that is
needed for the expenses toward securing the new air
conditioning units. Of course, if you still desire to
contribute toward this need, you can make out your check
to "Pleasant View Baptist Church," place it in an envelope,
and mark on it "for A/C unit." We are grateful to those who
have contributed thus far; also, we are grateful for the
ingenuity and work of our men; without their availability, the
cost of this project would have been over \$25,000 - and
that is only for the cost of one unit, not including the cost of
getting the additional one as well.
