Air Conditioning Flow Is Improved

Take a look at the back of the worship center. You will see the latest work visible by our men who saved our church thousands of dollars, actually about \$22,000, in doing the work by installing one of the new air conditioning units of the two that were purchased by your contributions. Even with just this one of the two new units in, there is now a better flow of air in the worship center than there has ever been in our church. You can now actually feel the air in the welcome center vestibule at the front of the church along with the two rooms on either side. A little later in the Fall they will install the other unit. Thanks be to God and to His people in bringing us to this milestone.

A Call for Additional Volunteers for AWANA

With our church's AWANA ministry having started this past Wednesday, we want to ask for your help. Would you ask God if He is leading you to help in this ministry that is being used to reach boys and girls with the Gospel? It can be something as simple as being a "floater" to move to areas of need. Or you can listen as children recite for you the Bible verses they are memorizing. See Steve Royals for more details.
