Latest Update on Facilities

As you probably have noticed, we are still making progress on the repairs needed due to the water damage. Most of the painting has been completed. Restoring the bathrooms as well as moving “stuff” back to where it needs to be in the fellowship hall area are among the main remaining tasks to be completed. We are still figuring out the hallway areas. In discussions with members of the house and grounds committee, the finance committee, the social committee and decorations committee, there is arising a consensus to replace the damaged carpet with luxury vinyl tile (LVT). We also circled back to discussions among church leadership prior to the pandemic about the need to remodel our kitchen area in the fellowship hall. It is also the consensus of the above committees that now would be a good time to do the needed remodeling. We want you to be informed that this is the direction your church-elected committees are moving. If you desire to contribute to the cost of remodeling the kitchen, this would be helpful; you could designate on your offering envelope as “PVBC remodel kitchen.” For additional information on anything discussed in this article or to give any input you may have, you can talk to Gene Galloway, George Wilkie, or the pastor.
